WHAT IS ADVOCACY?

Our team of advocates work to provide a safe, confidential space for young people to access any support they require. We are not an alternative to clinical support, but we are independent professionals trained in providing independent generic advocacy and are on hand to liaise on young peoples' behalf.

Our advocates are committed to:

- Listening, representing, and empowering the young people we work with
- Supporting to bolster working relationships between young people and available pastoral and mental health services, internally and externally
- Acting as an independent and confidential sounding board

U - Understood

N - Not alone

I - Important

T - Together

E - Empowered

D - Decision making
